

Going on vacation? Don't know what to buy for that hard to please person? Sending a child off to college?

DELUXE GIFT CARDS

The DeluxeCard Visa prepaid card is a quick purchase for you and ideal for anyone on your gift list. It's welcomed worldwide at more than 19 million merchants that accept Visa debit cards, and can be used to make purchases online, by phone, or in person. DeluxeCard prepaid cards come in a variety of designs that are perfect for any occasion. There is even an everyday card that's secure for travel and convenient for smart budgeting.

How does it work? A DeluxeCard prepaid card looks like a credit card. The front of the card displays the name of the purchaser or gift recipient, the Visa Brand logo, an individual account number and an expiration date. The back includes a magnetic strip. Unlike a credit card, however, the DeluxeCard prepaid card may only be used for the amount loaded on the card.

Purchasers or gift recipients can use the card as many times as they like for a full year, up to the amount stored on the card. As the card is used, the amount of each purchase is automatically deducted from the card's available balance. If the card is lost or stolen with a balance remaining, the user can cancel the card and order a replacement for a nominal fee.

VISA TRAVEL CARDS

The Visa Travel Card is accepted wherever Visa debit cards are accepted. This card can be used by vacationers, college students, or as a budgeting tool.

This card can be reloaded with any dollar amount between \$25.00 and \$9,999.99. To reload it, we can debit your checking or savings account or you can pay in cash. It can be used to make purchases or withdrawals. This card is protected by a customer selected PIN.

You can even view a statement of your transactions and current balance online at the VISA website.
