

Mobiliti with CardValet®

Access CardValet

Your app users access CardValet through the **Manage My Cards** option on the Accounts screen or the **Cards** option in the More menu.

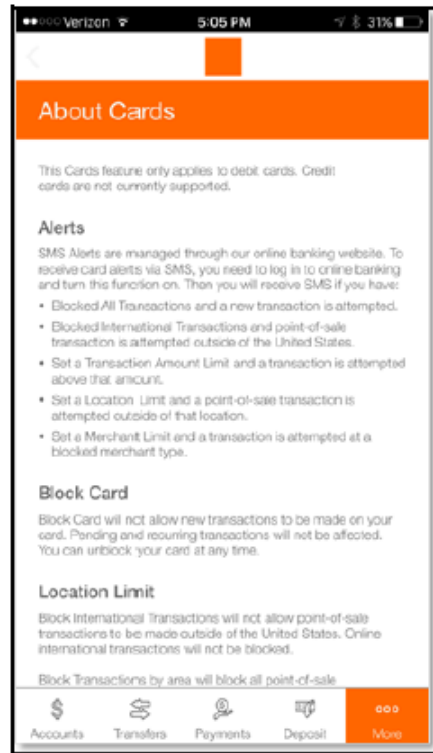

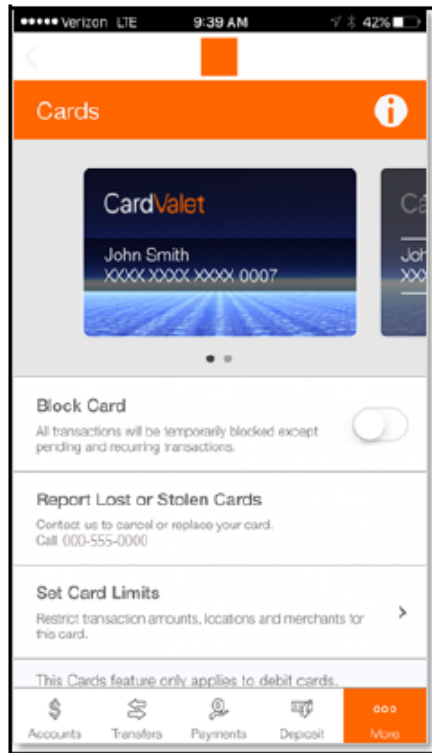

Debit cards tied to the accounts automatically load into a card carousel. Cardholders swipe through the carousel to locate cards to manage.

Learn about Mobiliti with CardValet

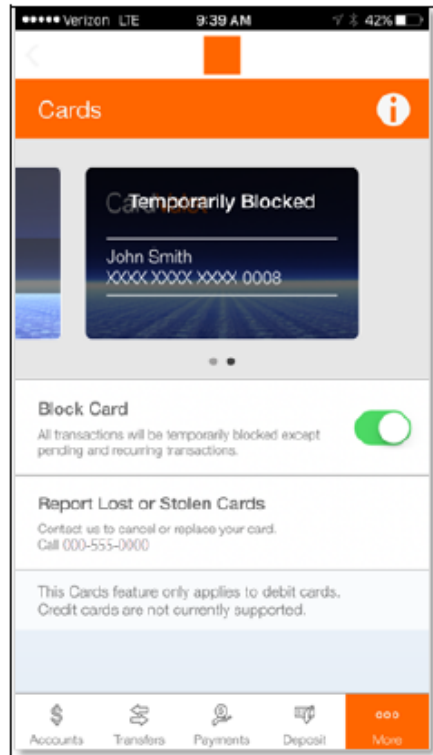

Get answers to your card control questions by tapping the icon at the top of the Cards screen.

Block Cards

With a single tap, cardholders can immediately disable a debit card. When a card is blocked, new purchases and ATM transactions are declined. Teller transactions, existing pending transactions, and recurring transactions are not blocked. The cardholder can easily remove the block on the card at any time. Changes in control settings take effect immediately.

If the cardholder must report the card lost or stolen, they can directly call FI with a single tap.

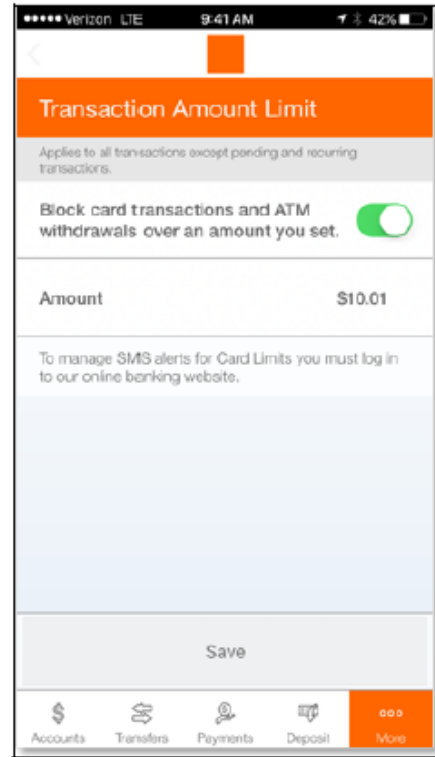

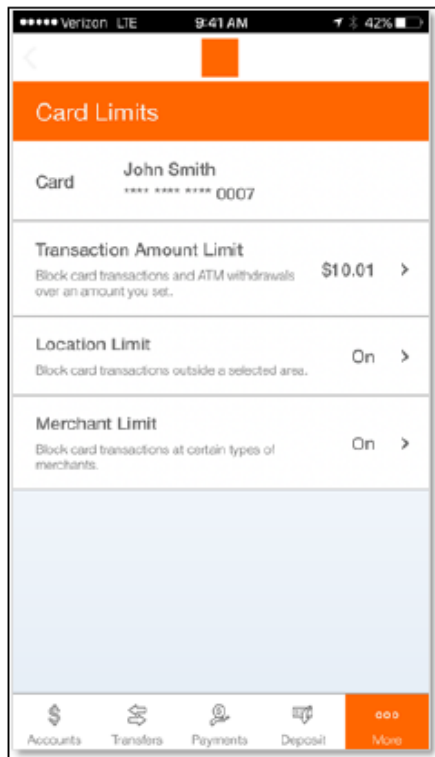

- Step 1** Tap **Manage My Cards** on the Account screen or **Cards** in the More menu.
- Step 2** Swipe through to select the required card.
- Step 3** Tap the **Block Card**.

The Block Card option turns green and **Temporarily Blocked** is displayed across the card image.

Limit Transaction Amounts

Cardholders can set a maximum transaction amount on a card. If a purchase or ATM transaction is attempted over the amount set, it is declined. Transaction amount limits apply to online ecommerce transactions as well as in-store transactions and ATM withdrawals.

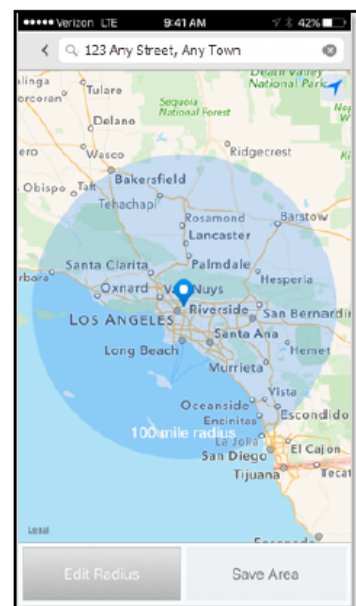

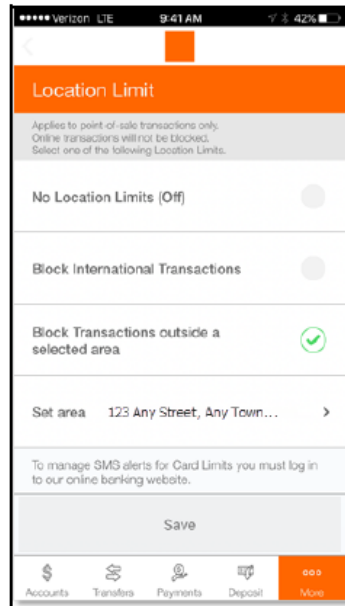

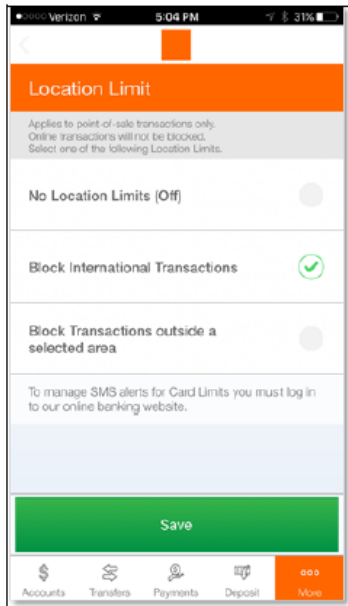

- Step 1** Tap **Manage My Cards** on the Account screen or **Cards** in the More menu.
- Step 2** Swipe through to select the required card.
- Step 3** Tap **Set Card Limits**.
- Step 4** Tap **Transaction Amount Limit**.
- Step 5** Tap **Block card transactions and ATM withdrawals over an amount you set** to turn it green and set the maximum transaction limit. All transactions above this amount will be declined.
- Step 6** Tap **Save**.

Limit Transaction Locations

Cardholders can control where a card is used by choosing to block international transactions or specifying a location radius where transactions are allowed. Location limits apply to in-store and ATM transactions. E-commerce transactions are not declined even when a location limit is activated.

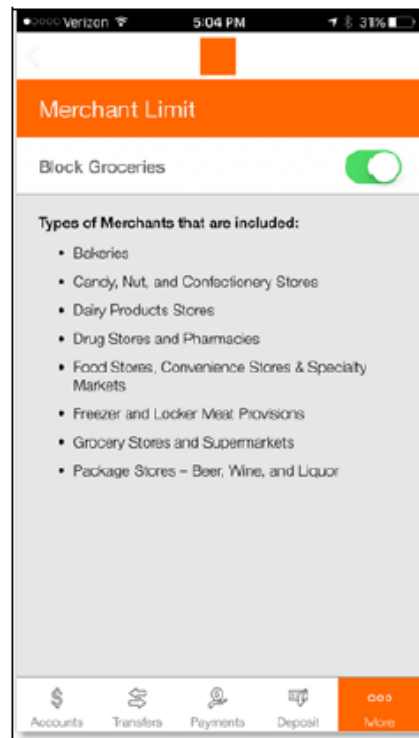

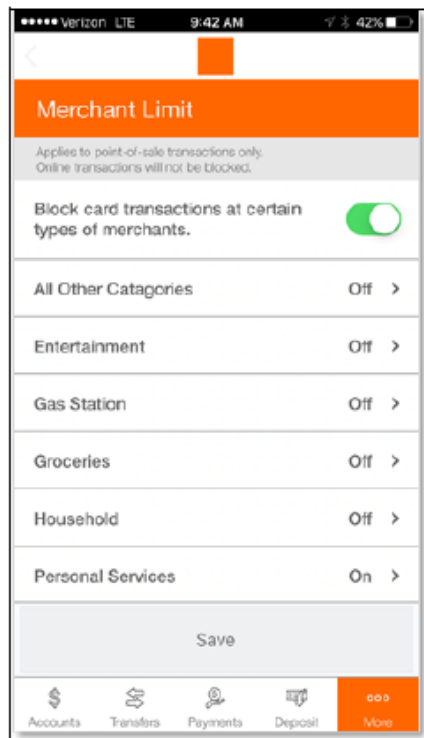

Note: If the merchant uses the corporate address and not the local address, a transaction could be denied if Location Limits is turned on.

- Step 1** Tap **Manage My Cards** on the Account screen or **Cards** in the [More](#) menu.
- Step 2** Swipe through to select the required card.
- Step 3** Tap **Set Card Limits**.
- Step 4** Tap **Location Limit**.
- Step 5** Select **Block International Transactions** or **Block Transactions outside a selected area** or both.
- Step 6** If you selected **Block Transactions outside a selected area**, enter the address and choose the radius around the address. The radius size defaults to 8 miles.
- Step 7** Tap **Save**.

Limit Merchant Transactions

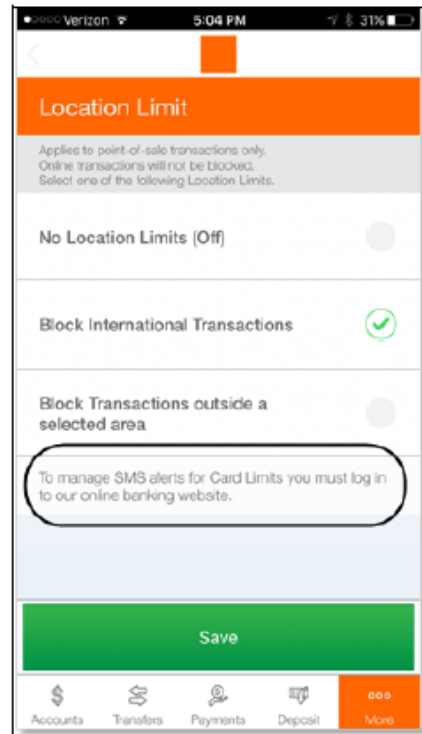

Cardholders can control how a card is used by choosing to block specific types of merchants—**Example:** one card designated only for gas stations; cardholders can block all other merchant types for that card. Detailed information is provided about the types of merchants impacted by each block setting. Merchant limits apply to online e-commerce transactions as well as in-store transactions.

- Step 1** Tap **Manage My Cards** on the Account screen or **Cards** in the More menu.
- Step 2** Swipe through to select the required card.
- Step 3** Tap **Set Card Limits**.
- Step 4** Tap **Merchant Limit**.
- Step 5** Tap **Block card transactions at certain types of merchants** to turn it green and select the merchant types.
- Step 6** Tap **Save**.

Receive Text Alerts

Cardholders can receive SMS alerts for declined debit card transactions due to set card controls. Cardholders enable or disable alerts through their online banking website as well register their mobile phone number and update the alert setting. The card alerts setting is found on the mobile banking self-service page or with the online banking alerts, depending on your online banking solution.

Set Up Alerts

Alerts cannot be set through the app and must be set through your online banking website. The following procedure may differ, based on your set-up.

- Step 1** Log into online banking.
- Step 2** Select **Preferences** (may be **Options** > **Profile** or something else)
- Step 3** Scroll down to Mobile Banking Profile section and select **Manage Devices**.
